

## Day Zero Sunday July 17th

16:00–18:00  
The Hub  
**Chairs – Georgia Richards & Peter Gill** with Stephen Bradley, Helen Macdonald & Andrea Tricco  
EMCRs, David Sackett fellows and Medical students - Conference preview/orientation - **Evidence-based thinking**

## Day One Monday July 18th

08:30–09:00  
Registration outside dining room  
Coffee in the marquee/gardens

09:00–09:15  
Dining Hall  
**Welcome** - Carl Heneghan

09:15–10:45  
Dining Hall  
**KN Session 1 - Transforming the communication of health evidence and risk for informing decisions** (communicating evidence to a wider audience – what are the concerns)

**Chair** - Carl Heneghan

**Allyson Pollock** - Health systems, communication of evidence, risk and decision making in the 2020 pandemic era.

**Margaret McCartney** - Being but never in doubt - honesty and policy

**Steven Woloshin**

10:45–11:15  
Marquee - Break

11:15–12:45  
Mawby Room  
**Abstracts** - Using real-world data to improve practice / Other

**Chairs – Peter Gill & Kamal Mahtani**

**Andrea Tricco** – Dealing with retrieval bias for an evidence-informed individual patient data network meta-analysis

**Dena Zera** – The Garden of Forking Paths: Do empirical findings hinge on arbitrary analytic decisions?

Dining Hall

**Abstracts** - Synthesizing and curating evidence and knowledge for better policy

**Chairs – Annette Pluddemann & David Nunan**

**Chiara Arienti** - The structure of research questions in rehabilitation randomized-controlled clinical trials: a methodological study

**David Byrne** - Clinical Study Reports published by the European Medicines Agency 2016-2018: A cross-sectional analysis

	<p><b>Tansy Wade</b> – Healthcare-associated infections (HAI) and the prescribing of antibiotics in hospital inpatients of the Caribbean Community (CARICOM) States: a mixed-methods systematic review</p> <p><b>Patricia Maria Gregoria M. Cuaño</b> - Burnout and Resilience among Internal Medicine Physicians in training in a tertiary government hospital in Manila, Philippines during the COVID-19 pandemic: a mixed-method study</p> <p><b>Wesley Park</b> – An Ethical Analysis of Evidence-Based Medicine</p> <p><b>Syed Imran Mehmood</b> - Teaching Evidence-Based medicine Using a Virtual Journal Club: A Pilot Study and Survey</p>		<p><b>Matthew Downer</b> - The high risk of neglecting multimorbidity: an example examining the risk of major bleeding on antiplatelet treatment following stroke, TIA, or MI using the Oxford Vascular Study</p> <p><b>Margaret McCartney</b> - How are declarations of interest working? A cross sectional study in declarations of interest in medical practice in Scotland and England in 2020/2021</p> <p><b>Ben Eastwood &amp; Chris Banks-Pillar</b> - The quality, reliability and applicability of evidence for exercise therapy in non-specific chronic lower back pain: an overview of network meta-analyses</p> <p><b>Fiona Campbell</b> - Evidence Gap Map (EGM)s: A Policy Makers Tool for Navigating the Evidence Landscape. A Case Study of Employment and Health from the Systems Science in Public Health and Health Economics Research (SIPHER) Project</p>	
12:45 – 14:00	Marquee - Lunch			
14:00– 15:30	<p>WS – Mawby Room</p> <p><b>Embracing complexity, advancing medical practice, and the need for Wicked Teams</b> Dr Nonsi Mathe &amp; Dr Karen Hunter</p>	<p>WS – The Hub</p> <p><b>Using implementation levers to translate evidence into practice</b> O'Rourke &amp; O'Toole</p>	<p>WS – 62 Meeting Room</p> <p><b>Promoting Equality and Diversity in Academic Publishing</b> BMJ EBM</p>	
15:30– 16:00	Marquee - Break			
16:00 – 17:00	<p>Dining Hall 3 Minute Round</p> <p><b>Leonard Ho</b> - Methodological Quality of Systematic Reviews on Treatments for Osteoporosis: A Cross-sectional Study</p> <p><b>Izhar Hasan</b> - Hierarchical arrangement of scholarly and novel information (Hasani): Automated Biomedical Literature Appraisal and Summarizer Using pre-trained NLP tools</p> <p><b>Charlotte Lee</b> - Compliance of randomized control trials investigating pharmacological interventions for SARS-CoV-2 with medication adherence reporting standards: a cross sectional analysis</p> <p><b>Elaine Lehane</b> - Development of an online toolkit to facilitate excellence for teaching and learning of Evidence Based Practice (EBP)</p> <p><b>Fareema Fassihi</b> - Does administration of a ketogenic diet alongside usual care impact survival or quality of life in trial participants with cancer?</p>			

17:30 – 19:00	Poster viewing / drinks reception	
<b>Day Two Tuesday July 19th</b>		
08:30 – 09:00	Registration outside dining room	
09:00 – 10:00	62 Meeting Room <b>Early Career Researcher session</b> - Kamal Mahtani, Georgia Richards, Peter Gill	
10:00 – 11:15	<p>Dining Hall</p> <p><b>Abstracts</b> - Transforming the communication of health evidence and risk for informing decisions</p> <p><b>Chairs - Carl Heneghan &amp; Helen Macdonald</b></p> <p><b>Richard Morrow</b> - Factors relating to nonpublication and publication bias in clinical trials in Canada: a qualitative interview study</p> <p><b>Lisa Askie</b> - SPIRIT-Outcomes and CONSORT-Outcomes: Enhanced trial outcome transparency, less bias, improved systematic reviews, better health</p> <p><b>Anne Chelchowska</b> - Impact of Novel social Media Interventions to Correct the reporting of Evidence (IN MICE): an interrupted time series study</p> <p><b>Richard Morrow</b> - Reporting clinical trial findings as an ethical responsibility to research participants: a qualitative interview study</p> <p><b>Kainat Bashir</b> - The influence of social networks on knowledge transfer within and between healthcare organizations: A scoping review</p>	<p>The Hub</p> <p><b>Abstracts</b> - Translating Knowledge for better-quality health services</p> <p><b>Chair – Annette Pluddemann &amp; Jamie Hartmann-Boyce</b></p> <p><b>Patricia Logullo</b> - Placebos in investigator initiated drug trials: a meta-research study</p> <p><b>Andrea Tricco</b> - Comparative safety and efficacy of cognitive enhancers Alzheimer's dementia: An individual patient data network meta-analysis</p> <p><b>Ayah Nayfeh</b> - The Influence of Patient Ethnicity on Satisfaction with the Quality and Provision of End-of-Life Care</p> <p><b>Mark-Steven Howe</b> - What can we learn from 50-Years' Worth of Clinical Decision-Making Research in Dental Surgery</p> <p><b>Chris Davies</b> - Utilizing Implementation Science Software (ISS) to successfully reach full implementation of an intervention at scale and pace.</p>

11:15 – 11:30	Marquee - Break	
11:30 – 13:00	Dining Hall <b>KN Session 2 - Developing and fostering future teachers and leaders in evidence based health care</b>  <b>Chairs</b> – Annette Pluddemann & Jamie Hartmann-Boyce  <b>Ashok Handa</b> <b>Denise Campbell-Scherer</b> - Cultivating Care <b>Miranda Voss</b>	
13:00 - 14:00	Marquee - Lunch	
14:00– 15:30	WS - Mawby Room  <b>Critical appraisal tools for qualitative research – time to expand the toolkit</b> Veronika Williams & David Nunan	WS – The Hub  <b>EBM and the opioid epidemic</b> Abhimanyu Sud
15:30– 16:00	Marquee - Break	
16:00 - 17:30	Dining Hall <b>Guest session – Coroners</b>  <b>Chair</b> – Georgia Richards  <b>Richard Brittain</b> - From Medical School to Coroner <b>Harrison France</b> – Preventable deaths involving Medicines	
18:00– 22:00	<b>Conference Social</b>  18:00 coaches to the Victoria Arms 18:45 Punt to Cherwell Boathouse 19:30 BBQ	

**Day Three Wednesday July 20th**

09:00– 09:30	Registration outside dining room	
09:30 – 11:15	<p>Dining Hall</p> <p><b>David S. Sackett fellowships</b> - Georgia Richards &amp; Peter Gill</p> <p><b>Yan Luo</b> - Visualizing the Evolution of Evidence: Cumulative Network Meta-Analyses of New Generation Antidepressants in the Last 40 Years</p> <p><b>Trevor Treharne</b> - The 'Traffic Light Wheel': a general reader visualisation tool to evaluate the quality of media news items on research evidence in EBM The media is the public's primary source of research evidence in EBM</p> <p><b>Kaitlyn Hair</b> - "Living" evidence frameworks for in vivo animal research: towards translational evidence-based medicine.</p> <p><b>Umer Siddique</b> - Adding evidence of the effects of treatments into relevant Wikipedia pages: a randomised trial</p> <p><b>Krish Bilimoria</b> - Meeting the Needs of a Diverse Readership: Towards Interactive Manuscripts</p> <p><b>Sathya Karunanathan</b> - When should systematic reviews be replicated and when is it wasteful: a checklist and framework</p> <p><b>Gabriel Costa</b> - Outcome Reporting Bias in the Non-Pharmacological Literature – Diminishing Research Gaps and Improving Emerging Health Literature</p> <p><b>Uday N. Yadav</b> - Using Co-design Process to Develop an Integrated Self-management Intervention Program for COPD patients in Nepal</p> <p><b>Edward W. Li</b> - <i>Does End-User-Engaged Peer Review Improve the Relevance, Replicability, and Accessibility of Research Evidence?</i> (pre-recorded)</p>	
11:15– 11:30	Marquee - Break	
11:30– 13:00	<p>WS - Mawby Room</p> <p><b>How to integrate patient values and preferences, with the best evidence and clinical expertise when generating GRADE recommendations</b></p> <p>O'Toole &amp; O'Rourke</p>	<p>WS – The Hub</p> <p><b>Catalogue of bias workshop</b></p> <p>David Nunan</p>
13:00 – 14:00	Lunch	
14:00– 15:30	<p>The Hub</p> <p><b>Abstracts</b> - Synthesizing and curating evidence and knowledge for better policy</p> <p><b>Chair – Peter Gill &amp; Annette Pluddemann</b></p>	<p>Dining Hall</p> <p><b>Abstracts</b> - Patient involvement &amp; collaboration in producing evidence</p> <p><b>Chair – Helen Macdonald &amp; David Nunan</b></p>

	<p><b>Chiara Arienti</b> - Overview of Cochrane Systematic Reviews for the development of a Package of Interventions for Rehabilitation: a mapping synthesis</p> <p><b>Ranin Soliman</b> - Systematic review of costs and cost-effectiveness of treatment for relapsed/refractory acute leukaemia in children</p> <p><b>Elizabeth Thomas</b> - Determining the quality of evidence underpinning diagnostic test recommendations in paediatric clinical practice guidelines for asthma: a meta-epidemiological study.</p> <p><b>Chiara Arienti</b> - Rehabilitation–COVID-19 Evidence-based Response Action (REH-COVER): a “rapid” and “living” systematic review methodology</p> <p><b>Syed Imran Mehmood</b> - &amp; Clinical Pearl: A voice based point of care Clinical search engine &amp; Clinical question capturing platform</p>	<p><b>Nancy Marlett</b> - Co design with, by, and for patients as part of research projects and grants.</p> <p><b>Charlene Hoi Lam Wong</b> - Identifying Chinese medicine clinical research priorities in cancer palliative care using James Lind Alliance Priority Setting approach</p> <p><b>Andrea Tricco</b> - The Strategy for Patient Oriented Research (SPOR) Evidence Alliance: Patient Partnership in Research</p> <p><b>Nancy Marlett</b> - “Lessons from Citizen Science for evidence-based health research”</p>
15:30 – 15:45	Marquee - Break	
15:45 – 17:00	Dining Hall <b>KN Session 3 – Leadership in Healthcare</b>  <b>Chair</b> – Kamal Mahtani  <b>Sunetra Gupta</b> <b>Khamis Elessi</b>	
17:00	Safe journey home
